JEESILC 92

JEESILC 92 is a 35% active cationic emulsion of amino-functional polydimethyl-siloxanes, which enhances the performance characteristics of car waxes, shampoos, rinses, and shampoo-in hair colorings.

JEESILC 92 demonstrates excellent dilution and solution compatibility because of its very small particle size in the range of 0.5 micron. The product also demonstrates outstanding reactivity and ease of formulation with car polishes and shampoos. The product improves wet combing ease, luster, and resistance to dry fly-away when used in after-shampoo hair rinses or shampoo conditioning agents.

Typical Properties

Color:	Milk White
Emulsion Type:	Cationic
Freeze/Thaw, Cycles:	>6
pH:	7.2
Silicone Content %:	35
Suitable Diluent:	Water
Viscosity:	20 cps

Storage **JEESILC 92** should be stored below 100 °F.
Shelf life of **JEESILC 92** is one year from the date manufactured.

Standard Packaging: Tote
Net Weight: 2800 Lbs.

Standard Packaging: 55 Gallon Drum
Net Weight: 440 Lbs.

Standard Packaging: 5 Gallon Pail
Net Weight: 40 Lbs.
