**Section 6 - Accidental Release Measures**

- |            |   |  |
|------------|---|--|
| <b>6.1</b> | <b>Methods and Material for Containment and Cleaning Up</b> | Sections 13 and 15 of this SDS provide information regarding certain Federal and local requirements. Collect for disposal. Clean up remaining materials from spill with suitable absorbent. For large spills provide diking or other appropriate containment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container. Clean area as appropriate since some silicone material, even in small quantities, may present a slip hazard. Final cleaning may require steam, solvents, or detergents. Observe all personal protection equipment recommendations described in Sections 5 and 8 of this MSDS. Observe all Federal, Provincial and local regulations that may apply to the clean-up of this material. |
