ALOE VERA SPRAY DRIED POWDER-DECOLORIZED (100X)

INCI: Aloe Barbadensis Leaf Juice

APPEARANCE @ 25°C:	WHITE TO OFF WHITE POWDER
ODOR:	LIGHT VEGETABLE
% MOISTURE:	8% MAXIMUM
pH (5% SOLUTION):	4.0 - 5.0
SPECIFIC GRAVITY @ 25°C:	1.000 - 1.006
AEROBIC PLATE COUNT:	< 100 cfu per gram
PATHOGENIC COUNT:	0.0

NOTE: THIS IS A NATURAL PRODUCT AND MAY DARKEN WITH AGE. SLIGHT FALL OUT MAY OCCUR WITH AGE.

Spray Dried Aloe Vera Powder is a convenient-to-use version of Aloe Vera Gel for use in cosmetics, toiletries, foods, beverages and O.T.C. pharmaceuticals. The process begins with freshly harvested leaves of the Aloe Vera Barbadensis variety of aloe. The inner gel (fillet) is carefully removed to minimize disruption of the Aloin layer. The gel is then further processed to remove the pulp and fiber. The resultant gel is then pasteurized and preserved to maintain its efficacy. The gel is then concentrated utilizing low temperature evaporation to produce a liquid concentrate ready for spray drying, incorporating an anti-caking matrix to minimize clumping. This highly concentrated spray dried material saves substantially on shipping and handling costs. The process goes through a specially designated proprietary process to remove the color bodies prior to spray drying, which also reduces the Aloe's inherent odor.

Packaging: 5 Lbs. 10 Lbs., 20 Lbs., 55 Lbs. and 110 Lbs. Net Each
