A	BP - AMARANTH FBA Sodium Cocoyl Hydrolyzed Amaranth Protein	0.0100	Botanicals Plus	BP–Amaranth FBA is non-ionic in nature, stable over a wide pH range and highly compatible with other ingredients. It provides excellent foam, foam density, and stability even in the presence of salt. It is extremely mild and biodegradable. The presence of the protein base enhances substantivity to skin and hair, leaving behind an elegant, conditioned feel after rinsing. In hair care, it increases the volume of individual fibers for fuller hair, reduces friction to increase bounce and movement of hair, adds gloss and shine for healthier looking hair, improves manageability, and prevents damage.	
B	JEECHEM NDA-H Hexadecane	65.550	Jeen	Jeechem NDA-H is a Naturally Derived Alkane replacement for Cyclopentasiloxane (D5). It is a low viscosity fluid that is dry and fast spreading without being volatile. It can be used to enhance the performance and feel of skin care, hair care, body care, and all color cosmetics	
B	JEECILC® 110 Dimethicone	0.0500	Jeen	Jeesilc® 110 is a dimethicone balanced to produce a soft, cascading feel and prolonged playtime in any formulation. The end result is a lovely, elegant slip with enhanced gloss and satiny finish. It is equally beneficial to hair care formulations imparting silkiness and conditioning properties to the hair.
