OleoSil PS-D and OleoSil PS-D50 Lipsticks are showcases for the impact of our Bis-Vinyl Dimethicone/Dimethicone Copolymer. Mostly formulated with natural oils and waxes, these two lipsticks showcase the impact that our OleoSil PS-D and OleoSil PS-D50 can make in changing the feel, application, deposition, and wearability of lipsticks.

Trade Name					
Phase	INCI Name	%	Vendor	Highlight Jeen Ingredients	
A	Carnauba Wax Carnauba Wax	8.5100			
A	Candelilla Wax Candelilla Wax	18.800			
B	COCONUT OIL Cocos Nucifera (coconut) Oil	28.250	Jeen		
B	OLIVE OIL (PURE) Olea Europaea (olive) Fruit Oil	9.4000	Jeen		
C	OleoSil PS-D50 Dodecane (and) Bis-vinyl Dimethicone/dimethicone Copolymer	6.6000	Jeen	OleoSil gels are elastomer gels utilizing alkanes to produce an array of functional end-products differentiated by sensorial feel, chemical function, and versatile end-use and are 50-90% naturally-derived. OleoSil gels are specifically tailored for end-use function, and, also act as sensorial modifiers vastly improving texture, feel, slip, application, and play time. OleoSil PS-D50 is a part of our patented Bis-Vinyl Dimethicone/Dimethicone Polymer Technology, this pourable and easy to use viscous gel contributes shine, easy wear ability, moderate film forming with moderate emollience and comfortable all-day wear.
