

Jeelux[®] VHIPP

Patented* Specialty Silicone

Jeelux[®] VHIPP helps enhance and elevate your formulations using Isopropyl Palmitate. With the addition of our Bis-Vinyl Dimethicone/Dimethicone Copolymer in solvent of Isododecane, this silicone ester blend will leave your skin softer and more supple. Moisturization is increased in the volatile carrier, isododecane. JEEN holds application patents for all ingredients utilizing Bis-Vinyl Dimethicone/ Dimethicone Copolymer, so you have the freedom to formulate without infringing on application patents by your competition. The linear, noncrosslinked nature of the unique Copolymer leads to one of the key benefits-ease of incorporation into the oil phase of emulsions without high shear agitation.

PRODUCT APPLICATIONS:

- Color Cosmetics
- Sun Care
- Hair Care

KEY BENEFITS:

- Patented, Non-Crosslinked Polymer allows freedom to formulate
- Uniform spread with no balling upon application
- Delivers Silky, Smooth finish
- Low Viscosity Gel allows ease of use for less formulation and production time

| Typical Properties | |
|---|--|
| INCI Name | Isopropyl Palmitate, Isododecane, Bis Vinyl Dimethicone/Dimethicone Copolymer |
| Appearance @ 25°C | Thick Gel |
| Refractive Index @ 25°C | 1.410 - 1.450 |
| Viscosity @ 25°C (Brookfield HB, SP #2 @ 100 rpm) | 200 - 1,000 cps |
| Recommended use levels | Hair care products: 0.5 - 2.5% Skin care products: 5 - 15% Body care products: 3 - 5% Color cosmetics: 10 - 25% |
