SECTION 5 – FIRE FIGHTING MEASURES

5.1 Flash Point	COC >325 °F
5.2 Flammable Limits in Air	Not determined
5.3 Auto ignition Temperature	Not determined
5.4 Extinguishing Media	On large fires use dry chemical, foam or water spray. On small fires use carbon dioxide (CO ₂), dry chemical or water spray. Water can be used to cool fire exposed containers.
5.5 Fire Fighting Measures	Self-contained breathing apparatus and protective clothing should be worn in fighting large fires involving chemicals. Determine the need to evacuate or isolate the area according to your local emergency plan. Use water spray to keep fire exposed containers cool.
5.6 Unusual Fire Hazards	None

SECTION 6 – ACCIDENTAL RELEASE MEASURES

6.1 Methods and Material for Containment and Cleaning Up	Determine whether to evacuate or isolate the area according to your local emergency plan. Observe all personal protection equipment recommendations described in Section 5 and 8. For large spills, provide diking or other appropriate containment to keep material from spreading. If dikes material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absorbent. Clean area as appropriate since spilled materials even in small quantities may present a slip hazard. Final cleaning may require use of steam, solvents or detergents. Dispose
