---

**SECTION 2 – HAZARDS INGREDIENTS**

---

<b>2.1</b>	<b>Classification of the Substance or Mixture according to Regulation (EC) 1272/2008</b> Health Hazards	Skin Corrosion/Irritation Serious Eye Damage/Eye Irritation	Category 2 Category 1
	Unknown toxicity	Acute toxicity, oral Acute toxicity, dermal Acute toxicity, inhalation, vapor Acute toxicity, inhalation, dust or mist	0.0 % 0.0 % 26.6 % 26.1%

**2.2** **Label Elements** according to Regulation (EC) EU 1272/2008  
Hazard Pictogram

Signal Words  
Hazard Statements:

Danger  
H315: Causes skin irritation.  
H318: Causes serious eye damage

Precautionary Statements:  
Prevention

P264: Wash thoroughly after handling  
P280: Wear protective gloves/protective clothing/eye protection/face protection

**SAFTY DATA SHEET**  
**According to Regulation (EC) No 1907/2006 (REACH)**

**Revision Date: March 24, 2017**

**Version No.: 2**

Response

P305+351+338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing

P302+350: IF ON SKIN: Gently wash with soap and water

P332+313+310: If skin irritation occurs: Get medical advice/attention. Immediately call a POISON CENTER or doctor/physician

Disposal

P501: Dispose of contents/container to an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal.

**SECTION 4 – FIRST AID MEASURES**

**4.1 Firsts Aid Response**

Ingestion:

Rinse mouth. Get medical attention if symptoms occur.

Inhalation:

Remove exposed person to fresh air if adverse effects are observed.

Skin Contact:

Take off contaminated clothing and wash before re-use.

Wash skin thoroughly with soap and water. If skin irritation occurs, get medical attention.

Eye contact:

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER/doctor.

**4.2 Most important Symptoms and Effects**

See section 1.

**4.3 Indication of any immediate Medical Attention and special Treatment needed**

Treat symptomatically.

**SECTION 5 – FIRE FIGHTING MEASURES**

**5.1 General Fire Hazards**

No unusual fire or explosion hazards noted.

**5.2 Extinguishing Media**

Suitable extinguishing media:

Use water spray, dry chemical or foam for extinction. CO2 may be ineffective on large fires.

Unsuitable extinguishing media:

Not determined

**5.3 Special Protective Equipment and Precautions for**

**SAFETY DATA SHEET**  
**According to Regulation (EC) No 1907/2006 (REACH)**

Revision Date: March 24, 2017

Version No.: 2

**Firefighters**

When heated, hazardous gases are released including chlorine, hydrogen chloride, and sulfur dioxide. See section 10 for additional information. Material will not burn until water has been evaporated. Container may rupture on heating. Water or foam may cause frothing. Avoid solid streams of water. Use water spray.

**5.4 Special Protective Equipment for Firefighters**

Recommend wearing self-contained breathing apparatus.

---

**SECTION 6 – ACCIDENTAL RELEASE MEASURES**

---

**6.1 Personal Protective Equipment**

Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Keep unauthorized personnel away. See Section 8 of the SDS for Personal Protective Equipment. Ventilate area if spilled in confined space or other poorly ventilated areas. Personal Protective Equipment must be worn, see Personal Protection Section for PPE recommendations.

**6.2 Environmental Precautions**

Avoid release to the environment. Do not contaminate water sources or sewer. Prevent further leakage or spillage if safe to do so.

**6.3 Methods and Material for Containment and Cleaning Up**

Dike far ahead of larger spill for later recovery and disposal. Pick up free liquid for recycle and/or disposal. Residual liquid can be absorbed on inert material. Wash area with soap and water. Spilled liquid and dried film are slippery. Use care to avoid falls. Stop the flow of material, if this is without risk. Prevent entry into waterways, sewer, basements or confined areas.

---

**SECTION 7 – HANDLING AND STORAGE**

---

**7.1 Precautions for Safe Handling**

Do not get in eyes. Avoid contact with skin. Observe good industrial hygiene practices. Provide adequate ventilation. Wear appropriate personal protective equipment. Wash hands thoroughly after handling. Launder contaminated clothing before reuse. Avoid environmental contamination. Avoid contact with eyes and prolonged or repeated contact with skin. Avoid breathing mists or vapors. When using do not eat, drink or smoke. Stir well before use. Keep containers closed when not in use. Minimize contact with air to reduce contamination with mold, fungus, or other organisms which could cause decomposition or spoilage. Wash thoroughly after handling.

**7.2 Maximum Handling Temperature**

Not determined.

**7.3 Condition for Safe Storage, including any Incompatibilities**

Store away from incompatible materials. See section 10 for

**SAFTY DATA SHEET**  
**According to Regulation (EC) No 1907/2006 (REACH)**

Revision Date: March 24, 2017

Version No.: 2

incompatible materials. Keep from freezing. Do not store in open, unlabeled or mislabeled containers.

**7.4 Maximum Storage Temperature**

Not determined.

**SECTION 8 – EXPOSURE CONTROLS / PERSONAL PROTECTION**

**8.1 Occupational Exposure Limits**

None of the components have assigned exposure limits.

**8.2 Engineering Controls**

Use material in well ventilated area only. Adequate ventilation should be provided so that exposure limits are not exceeded. Mechanical ventilation or local exhaust ventilation may be required.

**8.3 Personal Protection**

General information:

Provide easy access to water supply and eye wash facilities. Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Eye/face protection:

Wear tight-fitting goggles or face shield.

Skin Protection

Hand Protection: Suitable gloves can be recommended by the glove supplier. Use good industrial hygiene practices to avoid skin contact. If contact with the material may occur wear chemically protective gloves.

Other:

Wear apron or protective clothing in case of contact. Do not wear rings, watches or similar apparel that could entrap the material. Gloves, coveralls, apron, boots as necessary to minimize contact. Do not wear rings, watches or similar apparel that could entrap the material.

Respiratory Protection:

A respiratory protection program compliant with all applicable regulations must be followed whenever workplace conditions require the use of a respirator. Under normal use conditions, respirator is not usually required. Use appropriate respiratory protection if exposure to dust particles, mist or vapors is likely. Use self-contained breathing apparatus for entry into confined space, for other poorly ventilated areas and for large spill clean-up sites. Under normal use conditions, respirator is not usually required. Use appropriate respiratory protection if exposure to dust particles, mist or vapors is likely. Use self-contained breathing apparatus for entry into confined space, for other poorly ventilated areas and for large spill clean-up sites. Observe good industrial hygiene practices. Do not get in eyes. Avoid contact with skin. Wash contaminated clothing

Hygiene measures:

before reuse. Wash hands before breaks and immediately after handling the product.

---

**SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES**

---

**9.1 Information on basic Physical and Chemical Properties**

Appearance:	Water White Liquid
Odor:	No data available
Odor threshold:	Not determined
pH:	6 - 7 (10 % Water)
Freezing point:	Approximate 0 °C
Boiling Point:	Approximate 212 °F (100 °C)
Flash Point:	Not applicable.
Evaporation rate:	< 1 n-butyl acetate=1
Flammability (solid, gas):	No data available.
Upper/lower limit on flammability or explosive limits	
Flammability limit - upper (%):	No data available.
Flammability limit - lower (%):	No data available.
Explosive limit - upper (%):	No data available.
Explosive limit - lower (%):	No data available.
Vapor pressure:	< 18 MM Hg (25 o C)
Vapor density:	< 1 Air =1
Solubility(ies)	
Solubility in water:	Soluble
Solubility (other):	No data available.
Partition coefficient (n-octanol/water):	No data available.
Auto-ignition temperature:	No data available.
Decomposition temperature:	No data available.
Viscosity:	< 8000 Centipoise (25 ° C)

**9.2 Other Information**

Bulk density:	8.67 lb/gal 77 °F (25 °C)
Percent Solid:	25 % (Percent by Weight)
Percent volatile:	75 %(Percent by Weight)

---

**SECTION 10 – STABILITY AND REACTIVITY**

---

<b>10.1 Stability</b>	Material is stable under normal conditions.
<b>10.2 Incompatible Materials</b>	Strong oxidizers
<b>10.3 Hazardous Decomposition Products</b>	Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapors. Irritating and toxic substances may be emitted upon combustion, burning, or decomposition of dry solids.
<b>10.4 Reactivity</b>	No data available.
<b>10.5 Possibility of Hazardous Reactions</b>	Will not occur.

**SAFTY DATA SHEET**  
**According to Regulation (EC) No 1907/2006 (REACH)**

Revision Date: March 24, 2017

Version No.: 2

**10.6 Conditions to Avoid** Do not freeze.

**SECTION 11 - TOXICOLOGICAL INFORMATION**

**11.1 Information on likely Routes of Exposure**

Inhalation:	No data available.
Ingestion:	No data available.
Skin Contact:	Causes skin irritation.
Eye contact:	Causes serious eye damage.

**11.2 Acute Toxicity**

Oral - Product:	Not classified for acute toxicity based on available data
Dermal - Product:	Not classified for acute toxicity based on available data.
Inhalation - Product:	Not classified for acute toxicity based on available data.
Skin Corrosion/Irritation - Product:	Prolonged or repeated skin contact as from clothing wet with material may cause dermatitis. Symptoms may include redness, edema, drying, and cracking of the skin.
	Remarks: Causes skin irritation.
Serious Eye Damage/Eye Irritation - Product:	Remarks: Causes serious eye damage.
Respiratory sensitization:	No data available
Skin sensitization:	No data available
Specific Target Organ Toxicity - Single Exposure:	Ammonium laureth sulfate If material is misted or if vapors are generated from heating, exposure may cause irritation of mucous membranes and the upper respiratory tract.
	Ethoxylated alcohol If material is misted or if vapors are generated from heating, exposure may cause irritation of mucous membranes and the upper respiratory tract.
Aspiration Hazard:	No data available

**11.3 Chronic Effects**

Carcinogenicity:	No data available
IARC Monographs on the Evaluation of Carcinogenic Risks to Humans:	No carcinogenic components identified
US. National Toxicology Program (NTP) Report on Carcinogens:	No carcinogenic components identified
US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050):	No carcinogenic components identified
Germ Cell Mutagenicity:	No data available
Reproductive toxicity:	No data available
Specific Target Organ Toxicity - Repeated Exposure:	No data available

**SECTION 12 - ECOLOGICAL INFORMATION**

**12.1 Persistence and Degradability Biodegradation**

Ammonium laureth sulfate	OECD TG 301 B, > 85 %, 28 d, Readily biodegradable
Ethoxylated alcohol	OECD TG 301 F, 95 %, 28 d, Readily biodegradable

**12.2 Bioconcentration Factor (BCF)** No data available

**12.3 Partition Coefficient n-octanol / water (log Kow)** No data available.

**SAFTY DATA SHEET**  
**According to Regulation (EC) No 1907/2006 (REACH)**

Revision Date: March 24, 2017

Version No.: 2

---

**SECTION 13 - DISPOSAL CONSIDERATIONS**

---

**13.1 Waste Treatment Methods** Treatment, storage, transportation, and disposal must be in accordance with applicable Federal, State/Provincial, and Local regulations. Dispose of packaging or containers in accordance with local, regional, national and international regulations. Empty container contains product residue which may exhibit hazards of product.

**13.2 Contaminated Packaging** Container packaging may exhibit hazards.

---

**SECTION 14 – TRANSPORTATION INFORMATION**

---

**14.1 Shipping Description**  
DOT Not regulated.  
IMDG Not regulated.  
IATA Not regulated.  
Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code None known.

Note The DOT shipping information in this section is based on a bulk container. Please review the accompanying shipping papers for the correct shipping descriptions based the size of the package. Shipping descriptions may vary based on mode of transport, quantities, temperature of the material, package size, and/or origin and destination. It is the responsibility of the transporting organization to follow all applicable laws, regulations and rules relating to the transportation of the material. During transportation, steps must be taken to prevent load shifting or materials falling, and all relating legal statutes should be obeyed. Review classification requirements before shipping materials at elevated temperatures.

---

**SECTION 15 – REGULATORY INFORMATION**

---

**15.1 U.S Federal Regulations**  
TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D) None present or none present in regulated quantities.

**15.2 Superfund Amendments and Reauthorization Act of 1986 (SARA)**  
Superfund Amendments and Reauthorization Act of 1986 (SARA)  
Hazard categories  
  
Acute  
(Immediate)  
SARA 302 Extremely Hazardous Substance  
SARA 304 Emergency Release Notification

Note

This product may contain chemical(s) regulated under the Superfund Amendments and Reauthorization Act (SARA).

This product may contain chemical(s) known to the state of California to cause cancer and/or birth defects. Additional information can be received upon request.

All components are in compliance with chemical notification requirements in Australia.  
All components are in compliance with the Canadian Environmental Protection Act and are present on the

All components of this product are listed on the Inventory of Existing Chemical Substances in China.

To obtain information on the REACH compliance status of this product, please e-mail [info@jeen.com](mailto:info@jeen.com)

All components are in compliance with the Chemical Substances Control Law of Japan.

All components are in compliance in Korea.

All components are in compliance with chemical notification requirements in New Zealand.

All components are in compliance with the Philippines Toxic Substances and Hazardous and Nuclear Wastes Control Act of 1990 (R.A. 6969).

All components are in compliance with the Environmentally Hazardous Substances Ordinance in Switzerland.

This product requires notification before sale in Taiwan.

All components of this material are on the US TSCA Inventory.

The information that was used to confirm the compliance status of this product may deviate from the chemical information shown in Section 3.
