SAFTY DATA SHEET
According to Regulation (EC) No 1907/2006 (REACH)

Revision Date: March 21, 2017
Version No.: 2

SECTION 1 – IDENTIFICATION OF THE SUBSTANCE / MIXTURE AND OF THE COMPANY / UNDERTAKING

1.1 Product Identifier
Product Name
JEEPON AC-78

1.2 Relevant Identified Uses of the Substance or Mixture and Uses Advised Against
Identified uses
Cosmetic raw material

1.3 Details of the Supplier of the Safety Data Sheet
Company
JEEN International Corporation
24 Madison Road
Fairfield, New Jersey 07004
Tel: +1-973-439-1401
Fax: +1-973-439-1402
email: info@jeen.com
Website: www.jeen.com

1.4 Emergency telephone number
+1703-527-3887(Chemetrc Int’l Tel - Collect calls accepted)

SECTION 2 – HAZARDS INGREDIENTS

2.1 Classification of the Substance or Mixture according to Regulation (EC) 1272/2008
Eye Irritant

2.2 Label Elements according to Regulation (EC) EU 1272/2008
Hazard pictogram
GHS07

Signal words
Warning
H319: Causes serious eye irritation
P280: Wear protective gloves/protective clothing/eye protection/face protection
P305+351+338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing.

2.3 Other Hazards
None known

SECTION 3 – COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Substances
-

3.2 Mixture
Chemical characterization
INCI
Sodium Cocoyl Isethionate
Coconut Acid

JEEPON AC-78

SECTION 4 – FIRST AID MEASURES

4.1 Description of First Aid Measures

Eye Contact: Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

Skin Contact: Wash skin thoroughly with soap and water or use recognized skin cleanser. Get medical attention if irritation occurs. Remove contaminated clothing and shoes. Wash clothing before reuse. Clean shoes thoroughly before reuse.

Inhalation: Move exposed person to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth to mouth resuscitation. Get medical attention if symptoms occur. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

Ingestion: Wash out mouth with water. Remove dentures if any. Move exposed person to fresh air. Keep person warm and at rest. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Get medical attention if symptoms occur. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and get medical attention immediately. Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband.

Protection of first aid: No action shall be taken involving any personal risk or without suitable training.

4.2 Most important Symptoms and Effects

Causes eye irritation. Irritating to mouth, throat and stomach.

4.3 Indication of any immediate Medical Attention and special Treatment needed
SECTION 5 – FIRE FIGHTING MEASURES

5.1  Extinguishing Media
Use an extinguishing agent suitable for the surrounding fire.

5.2  Flammability of Product
May be combustible at high temperature.

5.3  Products of Combustion
These products are carbon oxides (CO, CO2), sulfur oxides (SO2, SO3 etc.). Some metallic oxides.

5.4  Special Exposure Hazards
No specific hazard.

5.5  Protective equipment for fire-fighting
Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

SECTION 6 – ACCIDENTAL RELEASE MEASURES

6.1  Personal precautions, Protective Equipment and Emergency Procedures
No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Put on appropriate personal protective equipment.

6.2  Environmental Precautions
Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if product has caused environmental pollution (sewers, waterways, soil or air).

6.3  Methods and Material for Containment and Cleaning Up
Small Spill:
Move containers from spill areas. Avoid dust generation. Using a vacuum with HEPA filter will reduce dust dispersal. Place spilled material in a designated, labeled waste container. Dispose of via licensed waste disposal contractor.

Large Spill:
Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Avoid dust generation. Do not dru sweep. Vacuum dust with equipment fitted with a HEPA filter and place in a closed, labeled waster container. Dispose of via a licensed waste disposal contractor.

6.4  Reference to other Sections
SECTION 7 – HANDLING AND STORAGE

7.1 Precautions for Safe Handling

Put on appropriate personal protective equipment (see Section 8). Eating, drinking and smoking should be prohibited in areas where this material is handled, stored, or processed. Workers should wash hands and face before eating, drinking, or smoking. Remove contaminated clothing and protective equipment before entering eating areas. Do not ingest. Avoid contact with eyes, skin, and clothing. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

7.2 Condition for Safe Storage, including any Incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

SECTION 8 – EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Engineering Measures

No special ventilation requirements. Good general ventilation should be sufficient to control airborne levels. If this product contains ingredients with exposure limits, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure below any recommended or statutory limits.

8.2 Personal Protective Equipment

Respiratory System:

Use a properly fitted, particulate filter respirator complying with an approved standard if risk assessment indicates this is necessary, respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. Recommended: disposable particulate mask.

Skin and Body:

Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Hands:

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. >8 hour/months (breakthrough time):
SAFTY DATA SHEET
According to Regulation (EC) No 1907/2006 (REACH)

Revision Date: March 21, 2017
Version No.: 2

natural rubber (latex)

Eyes:
Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. Recommended: splash goggles, safety glasses with side-shields.

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic Physical and Chemical Properties

SECTION 10 – STABILITY AND REACTIVITY

10.1 Stability
Stable

10.2 Conditions to Avoid
Avoid dust generation

10.3 Incompatible Materials
None known

10.4 Hazardous Decomposition Products
None known

10.5 Hazardous Polymerization
Under normal conditions of storage and use, hazardous polymerization will not occur

SECTION 11 - TOXICOLOGICAL INFORMATION

11.1 Information on Toxicological Effects
Specific effects:
Carcinogenic effects: No known significant effects or critical hazards.
Mutagenic effects: No known significant effects or critical hazards.
Teratogenicity: No known significant effects or critical hazards.
reproductive toxicity
Sensitization:
Ingestion: No known significant effects or critical hazards.
Inhalation: No known significant effects or critical hazards.
Eyes: Slightly Irritating to the eyes.
Skin: Slightly irritating to the skin.
SECTION 12 - ECOLOGICAL INFORMATION

12.1 Environmental Precautions
No known significant effects or critical hazards.

12.2 Products of Degradation
These products are carbon oxides (CO, CO2) and water, sulfur oxides (SO2, SO3 etc.).

12.3 Toxicity of the Products
The product itself and its products of degradation are not toxic.

SECTION 13 - DISPOSAL CONSIDERATIONS

13.1 Waste Treatment Methods
The generation of waste should be avoided or minimized wherever possible. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Disposal of this product, solutions and any by-product should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Disposal should be in accordance with applicable regional, national and local laws and regulations. Local regulations may be more stringent than regional or national requirements.

SECTION 14 – TRANSPORTATION INFORMATION

14.1 Shipping Description
UN Number: NA
Land-road/Railway
ADR/RID Class: NA
Inland Waterways
ADNR Class: NA
Sea
IMDG Class: NA
IMDG Page Number: NA
Air
IATA-DGR Class: Not regulated
National Transport Regulations: NA
Reportable quantity: CERCLA: Hazardous substances. No products were found.
Flash point: Closed cup: >93.322 deg C (200 deg F). (Tagliabue.)

SECTION 15 – REGULATORY INFORMATION

15.1 United States
HCS Classification: Not regulated.
U.S. Federal regulations: TSCA 8(b) inventory: fatty acids, coco, 2-sulfoethyl esters, sodium salts
SARA 302/304/311/312 extremely hazardous substances: No products were found.
SAFETY DATA SHEET
According to Regulation (EC) No 1907/2006 (REACH)

Revision Date: March 21, 2017
Version No.: 2

SARA 302/304 emergency planning and notification: No products were found.
SARA 302/304/311/312 hazardous chemicals: No products were found.
SARA 311/312 MSDS distribution – chemical inventory – hazard identification: No products were found.
Clean Water Act (CWA) 307: No products were found.
Clean Water Act (CWA) 311: No products were found.
Clean Air Act (CAA) 112 accidental release prevention: No products were found.
Clean Air Act (CAA) 112 regulated flammable substances: No products were found.
Clean Air Act (CAA) 112 regulated toxic substances: No products were found.

15.2 Canada
WHMIS (CANADA)

Not controlled under WHMIS (Canada)
This product has been classified according to the hazard criteria of the CPR and the SDS contains all the information required by the CPR

15.3 EU Regulations
Risk phrases

This product is not classified according to EU legislation.
