SECTION 4 – FIRST AID MEASURES

4.1 Description of First Aid Measures

Inhalation:	Move to fresh air. If breathing stops, provide artificial respiration. If breathing is difficult, give oxygen. Get medical attention.
Eye contact:	Immediately flush with plenty of water for at least 15 minutes. If easy to do so, remove contact lenses. Call a physician or poison control center immediately. In case of irritation from airborne exposure, move to fresh air. Get medical attention if symptoms persist.
Skin contact:	Wash with soap and water. Get medical attention if symptoms occur.
Ingestion:	Do not induce vomiting. Call a physician immediately.

SECTION 5 – FIRE FIGHTING MEASURES

5.1 Suitable Extinguishing Media	Carbon dioxide (CO ₂), water spray, foam, dry chemical
5.2 Unsuitable Extinguishing Media	None known.
5.3 Unusual Fire/Explosion Hazards	Product is not considered a fire hazard, but will burn if Ignited. Product can form a flammable vapor/air mixture at temperatures at or above the flash point. Closed container may rupture (due to build up in pressure) when exposed to extreme heat.
5.4 Hazardous Combustion Products	Irritating or toxic substances will be emitted upon burning, combustion or decomposition.
5.5 Special Protective Equipment for Fire-fighters	Wear self-contained breathing apparatus (SCBA) Equipped with a full face-piece and operated in a pressure-demand mode and approved protective clothing. Personnel without suitable respiratory protection must leave the area to present a significant exposure to hazardous gases from combustion, burning or decomposition. In an enclosed or poorly ventilated area, wear SCBA during cleanup immediately after a dire as well as during the attack phase of firefighting operations.

SECTION 6 – ACCIDENTAL RELEASE MEASURES

6.1 Personal Precautions, Equipment and Emergency Procedures	Refer to section 8 for recommendations on the use of Personal protective equipment. If spilled in enclosed area, ventilated. Eliminate ignition sources. PPE must be worn.
