JEECHEM GC-30 is a low irritation, water-soluble nonionic surfactant derived from coconut oil. It is an especially mild cleansing agent and solubilizer. It is a popular constituent in baby shampoos, baby washes, sensitive skin formulations and other mild personal care formulations, which require very low levels of skin and eye irritation.

JEECHEM GC-30 is useful as an extremely mild cleansing agent, as an emulsifier and as a solubilizer for fragrances and oils. It also helps build viscosity and adds emolliency to personal care products. It is compatible with other non-ionic surfactants and most anionic and cationic surfactants.
